

*Notes

Aim of the Course:

In order to provide more learning opportunities for students to excel in their talented areas, the Education Bureau (EDB) has commissioned the Faculty of Mathematics of the Hong Kong University of Science and Technology to develop the EDB Web-based Learning Course on Mathematics for the senior primary to junior secondary students with high potential.

Course Structure:

The course comprises 3 levels of on-line study with standards of the highest level comparable to senior secondary level. It will take one year to complete all the three levels. Students are required to pass the test at the end of each level before they can move on. Outstanding graduates from level 3 will be selected to attend a follow-up, 2-year-long mentorship programme (The first year being the Foundation Class and the second year the Extension Class) provided by the Chinese University of Hong Kong. The mentorship programme comprises research study, seminars, academic exchange, computational tasks and independent studies under the supervision of mentors.
