玩趣互動、感官學習：在現實世界中喚醒英語的超能力

Connecting English Learning to Real World with Gamified & Multisensory Experiences

Teaching Philosophy

- Implement a diverse range of innovative activities to enhance the learning experience.

- Make learning fun, interactive, and immersive, ensuring that students remain engaged and motivated throughout the process.

- Emphasis is placed on the practicality of English as a global language in today's context, highlighting its importance as a lingua franca for communication and collaboration.

- Authentic texts, such as news articles, short stories, and real-world materials, are incorporated into the curriculum to expose students to genuine language usage and cultural contexts.

- Promote active participation, critical thinking, and problem-solving skills, allowing students to apply their language knowledge in practical and meaningful ways.

- Technology and digital resources are utilized to enhance the learning experience, providing interactive platforms, online resources, and multimedia materials that support language acquisition and engagement.

- Focus on evaluating not only language proficiency but also the application of skills in real-world situations.

- Ensure that students have varied opportunities to develop their language skills, cultural understanding, and overall language competence.

Incorporating Engrossing Elements

- **Cultural Elements**

- Incorporating cultural elements into teaching and learning activities

- Exposing learners to diverse perspectives and aspects of life

- Facilitating a deeper comprehension of the language and its cultural intricacies

- Establishing connections between language skills and real-world contexts and experiences

- Including literature, films, music, art, and discussions about customs, traditions, and social norms

Incorporating Engrossing Elements

Playful Elements

- Incorporating role-plays and competitions into teaching and learning activities

- Fostering creativity and exploration

- Encouraging active engagement and participation

- Involving vocabulary quizzes, sentence construction challenges, and language-based competitions

- Allowing students to assume different roles and practice language skills in simulated real-life situations

- Providing opportunities for showcasing language abilities and fostering a sense of achievement

Incorporating Engrossing Elements
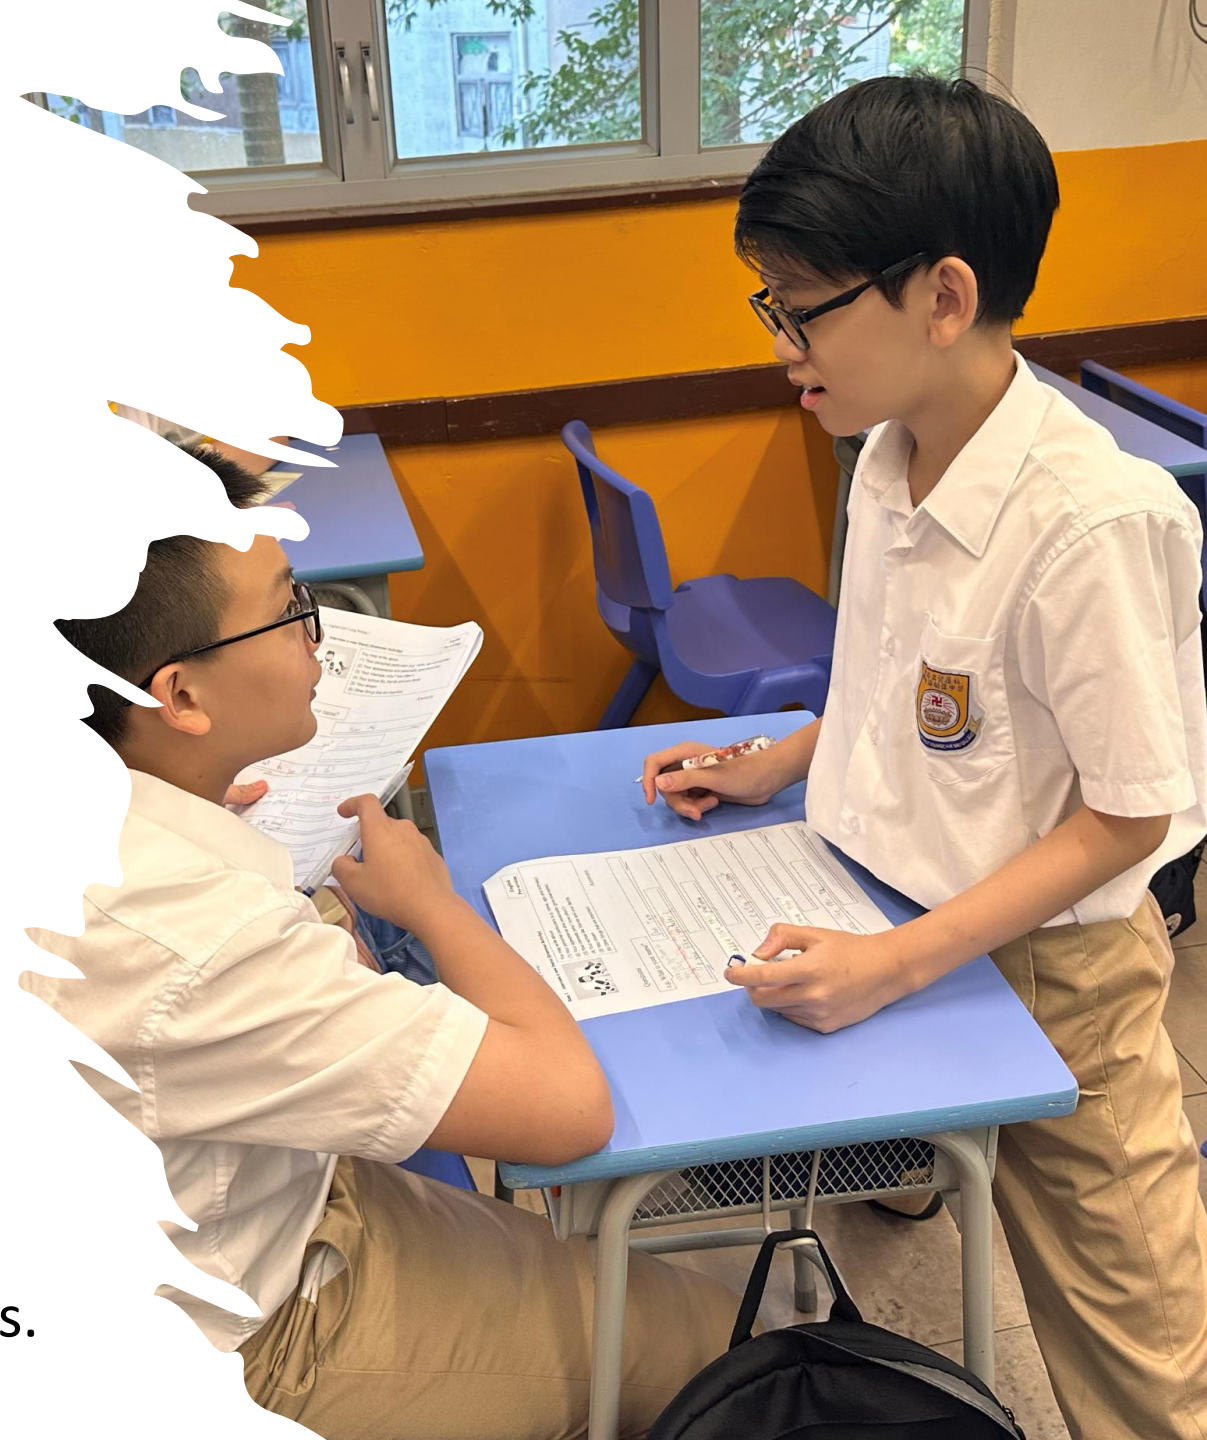

Overall Benefits

- Creating an English-rich environment

- Necessitating stronger language abilities

- Arousing interest and motivation among students

- Providing dynamic and engaging learning experiences

- Heightening student engagement

- Facilitating language acquisition

- Promoting positive attitudes towards language learning

- Enhancing student motivation, active participation, and collaboration

Communicative Language Teaching

Emphasize various communication-based teaching methods

- Focuses on helping students improve their English proficiency through practical application.

- Connects English learning to real-life situations, making it relevant and meaningful.

- Strives to make English more practical and applicable in students' everyday lives.

- Encourages active participation and interaction in English language activities.

Communicative Language Teaching

Emphasizes various communication-based teaching methods

- Provides opportunities for students to practice English in authentic contexts.
- Integrates real-life scenarios, such as role-playing or simulations, into English lessons.
- Promotes the use of English in practical settings, such as ordering food or engaging in conversations.
- Encourages students to apply their English skills outside of the classroom through projects or community involvement.
- Aims to equip students with the necessary language skills to navigate real-world situations confidently.

Communicative Language Teaching

Competitions

- Organizes a range of English competitions tailored to different grade levels.

- Specifically for newly enrolled first-year students (F.1), a self-introduction English writing competition is organized to assist them in making new friends and integrating into campus life.

- Winners of the competition have the opportunity to introduce themselves on stage to their peers.

- Other students in the audience actively listen and engage in the presentations.

Communicative Language Teaching

Competitions

- The competitions encompass the domains of English writing, listening, and speaking, providing comprehensive language practice.

- The activities contribute to the overall improvement of students' English skills.

- All students in the respective grade levels are encouraged to participate, fostering inclusivity and engagement among the student body.

Creating English Language Contexts

Implementing activities and resources that enhance students' interest and motivation in English learning

- Weekly English activities, known as "English Wednesdays," are organized to provide regular opportunities for students to engage with the language.

- These activities take place in various settings, such as the English room and tuck shop, offering a diverse and immersive English learning experience.

- The environment is designed to be comfortable and relaxing, allowing students to feel at ease while learning.

Creating English Language Contexts

- Students become more actively involved and invested in their learning due to the engaging nature of the activities.

- English elements are seamlessly integrated into students' campus life, making the language more relevant and accessible.

- The activities provide additional exposure to English, helping students become more familiar with an English-speaking environment.

- Through these initiatives, students have increased opportunities to practice English in real-life contexts and develop their language skills effectively.

Weekly Newspaper & Board Game Time

- A variety of board games are provided for students to engage with during this dedicated time.

- The combination of "newspaper" and "board game fun" creates an interactive and enjoyable learning experience for students.

- Students have the opportunity to play board games with teachers, fostering interaction and language practice in different contexts.

Weekly Newspaper & Board Game Time

- Incorporates a wide selection of board games suitable for students of different ages and English proficiency levels.

- The combination of "newspaper" and "board game fun" creates a unique and engaging learning experience for students.

- Learn and practice English through play, making the learning process enjoyable and interactive.

- During the activity, students can play board games with teachers, providing a supportive and immersive environment for English language practice.

- Through various games and interactions, students can apply their English skills in different contexts, such as strategic thinking, problem-solving, and communication.

Weekly Newspaper & Board Game Time

Weekly *Newspaper & Board Game Time*

- The activity was well-received by students in the previous year, indicating its effectiveness in promoting language learning and student engagement.

- The school plans to continue promoting the Weekly Newspaper & Board Game Time activity in the current year, recognizing its positive impact on students' English language development.

- The long-term goal is to deeply integrate the board game culture into students' English learning journey, creating a lasting and enjoyable approach to language acquisition.

- By incorporating board games regularly, the school aims to foster a love for learning English and provide students with a solid foundation for language proficiency.

English = Fun

Weekly *Newspaper & Board Game Time*

- Through the various games and interactions, students can apply and reinforce their English skills.

- The initiative was well-received by students in the previous year, indicating its effectiveness and popularity.

- Continue promoting the Newspaper & Board Game Time activity in the current year to maintain student engagement and enthusiasm.

- The ultimate goal is to deeply integrate the board game culture into students' English learning journey, creating a fun and immersive language learning experience.

Cater to Diverse Needs

- Many students are energetic and active.

- To cater to the diverse needs of students, it is necessary to design learning methods that accommodate their energy levels and learning styles.

- By incorporating diverse learning methods, students are more likely to stay engaged and motivated in their English learning.

- Activity arrangements include interactive and hands-on activities that allow students to actively participate and learn through experience.

Cater to Diverse Needs

- Resources that facilitate different learning approaches

- These resources may include multimedia tools, educational games, and interactive technologies that enhance students' learning experiences.

- By providing a range of learning methods and resources, students have the opportunity to choose the approach that best suits their learning preferences and strengths.

- This approach fosters a dynamic and inclusive learning environment where students can thrive and absorb knowledge effectively.

Thank You
